

MINER MUNROE WAS EASY FOR JIM JEFFRIES

Champion Put Him Out In Second Round.

Spectators Hooted When the Montana
Man Protested Against the De-
cision of Referee.

San Francisco, Aug. 27.—The defeat of Munroe by Jeffries leaves the latter without rivals in the pugilistic field, with no one in sight to take away his laurels. The gate receipts were \$21,800. Jeffries gets out of this \$7,548, and Munroe \$5,252, while the club gets the balance. Munroe's face was battered to shapelessness. Jeffries is without a scratch.

San Francisco, Aug. 27.—It took but four minutes and forty-five seconds from the time the bell rang for the commencement of hostilities, to demonstrate that Jack Munroe, the husky miner from Butte, Mont., was no match for James J. Jeffries, the champion heavyweight of the world. The two giants had not been in the ring two minutes when it was foreseen that the aspirations of Munroe would be quickly disposed of. The miner was scared and awkward, and Jeffries in the first round had him twice on the canvas taking the count. Jeffries directed his bombardment against the stomach of his opponent, and each shot was followed by a blow on the jaw that sent Munroe to his knees. Jeffries went back to his corner after the opening round with a sneer and a laugh on his swarthy face, while Munroe's seconds busied themselves with smelling salts and restoratives. When the two came together

for the second round the laugh on the champion's visage changed to a look of determination that boded ill to the miner.

Forty-five seconds after the gong sounded Munroe was lying on the floor, a bloody, bruised mass of humanity, with Jeffries standing over him, ready, if necessary, to put the quietus on the championship ambitions of his adversary. The miner was too dazed to rise to his feet and the timekeepers counted him out, but the husky man from southern California did not understand that the victory was already his, nor did Munroe realize that his pugilistic star had so early set, and the two men, in a moment or two, were facing one another, and Jeffries landed a terrific blow on the jaw of his staggering opponent.

Referee Graney quickly stepped forward and ordered Jim Jeffries away, telling him that the fight was ended in his favor. Munroe tottered to his corner with blood streaming from his face and fell into his chair dazed and helpless. His seconds immediately began working on him to freshen him, and when he came to a realization that the fight had gone against him he arose and, going over to Referee Graney, began to protest. The huge crowd understood that from his protesting gestures the purport of his talk to Graney, and a mighty volume of jeering and hissing evidenced the sentiment of the spectators, many of whom had placed money on the miner that he would stay at least double the number of rounds before the champion.

Estimate of the persons in attendance range from 7,000 to 8,000, and it is believed that the gate receipts will equal or exceed \$35,000. The betting just before the bell rang

JACK MUNROE.

was \$100 to \$30 on Jeffries. Munroe was the first to enter the ring, and was followed immediately by the champion. Both men received a hearty round of applause, Munroe receiving

the greater amount. The seconds were announced as follows: Jeffries—Billy Delaney, Jimmy Britt, Jack Jeffries and Joe Kennedy. Munroe—Kid Mc Coy, Harry Foley, Tim McGrath, "Twin" Sullivan and Frank McDonald. As far as appearances went Munroe contrasted greatly with the champion. His face wore a serious expression and was almost white. He appeared to be ill at ease as his seconds fastened the gloves on his hands.

When the men had retired to their dressing rooms Jeffries was surrounded by his friends and intimates, who congratulated him on the speedy outcome of his meeting with Munroe. Jeffries accepted the victory as a matter of course, and said: "All that I can say is that I am surprised at the speedy victory. It was that left hook to the jaw in the first round that did the work. I guess he felt a few of those body blows also. This fellow is not in Corbett's or Fitzsimmons' class. I wanted to give him a good wallop—maybe I gave him a few. I am only sorry I had not the chance to give a few more harder knocks than I was able to do. I admit that I have some bitterness against Munroe, for it was through his friends and from his camp that I have been called a cur. Why, I have trained as if I was going to meet Corbett or Fitzsimmons. There was actually nothing to this fight." Munroe was so crestfallen over his crushing defeat that he begged to be hurriedly taken away from his dressing room, and he was quickly taken out of the building. When asked for a statement concerning the fight, he refused to be interviewed, saying that he had nothing to say.

REVOLUTIONISTS

of Paraguayan Officials and
Stores.

Buenos Ayres, Aug. 27.—It is now confirmed that the Paraguayan revolutionists have seized a train containing stores and which had a number of government officials on board. The delegation is now on the way to Buenos Ayres under the protection of an Argentine gunboat to confer with the Argentine government and with the Paraguayan minister, Manuel Viera. Two hundred and fifty citizens of the Argentine republic are returning from Paraguay under diplomatic protection. The Paraguayan deputy, Senor Soler, who is seeking the recognition of the revolutionists as belligerents, is acquiring a stock of arms and other munitions of war from manufacturers in this republic.

TRADE

Has Improved Somewhat Because of
the Better Crop Prospects, Says
Dun's Review.

New York, Aug. 27.—Trade has improved somewhat, chiefly because of better crop prospects and the fact that last week's variations in prices of steel products failed to demoralize that industry. The industrial atmosphere is still disturbed by labor controversies, however, and it will be impossible to fully restore national prosperity until the proportion of voluntarily employed wage-earners is greatly reduced. Dispatches from leading cities indicate irregular conditions, but there is increasing confidence in the future. New business is reported in steel rails for both domestic and foreign account. Structural steel feels the effect of labor controversies in the building trades, but there is encouragement in large purchases for railway bridges and elevated roads. The pig iron outlook has been brightened by the restoration of several blast furnaces to the active list, and southern producers have been compelled to purchase large quantities of coke on account of the bituminous coal strike, which has proved more stubborn than expected.

The explosive was placed against the hotel under the window of the proprietor, Pearl Scott, who was in his bedroom. A hole 10 feet wide was blown through the building, but Scott escaped injury. A stone building in the rear was demolished and windows were shattered in all directions. There is no clue to the perpetrator.

Rockefeller, who were arrested at the World's Fair, were released from custody unofficially Friday night. There were no police court proceedings against them. The boys were taken into custody at the Moorish Palace on The Pike. They had forced open a side door because the place was crowded and they desired to leave. Manager F. D. Taylor, of the exhibit, as soon as he learned of the arrest, ordered the release of the little fellows.

STILETTO

And a Gun Used With Deadly Effect
In a Fight Between Italians
at Wilkesbarre.

Wilkesbarre, Pa., Aug. 27.—Dominic Mostello and Giuseppe Scirona are in a hospital at Sayre, seriously wounded. Some time ago Mostello informed the Lehigh Valley railroad detectives of the identity of the three members of the Mafia; one who held up a large number of Italians at Lake Carey and levied tribute on them. Three members of the "Black Hand" were arrested, but it was impossible to convict them, as Mostello and all the other Italians were afraid to testify against them in open court. One of the three, said to be a member of the Mafia band of New York, and several others from Athens, attacked Mostello and Scirona. The leader of the band shot Mostello twice and stabbed him several times with a stiletto. Scirona was shot through the face and had two teeth knocked out.

A Carnegie Heroine.

Marquette, Wis., Aug. 27.—Miss Gertrude Sawyer may wear a Carnegie medal for her bravery in piloting her party of children across Green bay in a rowboat on Thursday during a heavy sea, when the waves were 20 and 30 feet high and all steamers remained in port. It was her courage and nerve that saved the lives of the entire party as she remained at the oars until her hands were raw, taking charge of the boat and keeping up the spirits of all by assuming a light-heartedness she did not feel. Her friends will send a full account of her exploit to the trustee of the Carnegie fund and ask that she be granted the highest honor.

PORT ARTHUR ENTERED BY JAPS IS REPORTED

Unceasing Fire Was Kept Up All Day.

Earlier Reports That City Could Not
Be Taken By Assault Reversed
This Morning.

London, Aug. 27.—The stories to the effect that Port Arthur can not be taken by assault, are reversed this morning. Correspondent of the Evening Standard at Tien Tsin, sends a special dispatch to his paper in which he says:

"I have good reason to believe from private information, which I have received that the Japanese have effected an entrance to Port Arthur and that the fall of the fortress, consequently, is virtually accomplished.

Despite the fact that entrance has been effected at Port Arthur the Tien Tsin correspondent of the Evening Standard says that the Japanese will not make any announcement until all the fighting is ended. Continuing, the correspondent says, that the entrance was made by way of Tzushan fort. The Japanese occupied Poyushan and the parade ground within the forts at dawn on August 24, from which they swept down with unceasing fire throughout the day. The losses were heavy, the correspondent adds, but the courage of the Japanese troops were undaunted.

Russians Lose 1000 Men.

St. Petersburg, Aug. 27.—General Kuropatkin today reports that the Russian casualties in the battle with the Japanese at Lian Dian Shan, yesterday, were over 1,000. The Japanese are reported to have 24 guns out of action.

Fleet Starts East.

St. Petersburg, Aug. 27.—The Baltic fleet has started for the far East. As the fleet was leaving Cronstadt on Thursday, Admiral Birlin, commander of the Baltic ports, signalled "Wish you good fighting." Admiral Rojestvensky, who is in command of the fleet, replied, "We shall uphold the glory of St. Andrew's flag."

Russian Fire Weakens.

London, Aug. 27.—A dispatch from Tokio, today states that the fire of the Russians at Port Arthur is weakening. The belief prevails in the Japanese capital that the Russians are saving their ammunition for the final assault by the Japanese. Besides the guns taken from the ships which are very effective, the Russians are reported to be using rifles and machine guns. There is no official report yet of Port Arthur's fall.

Paris, Aug. 27.—The Tokyo correspondent of the Matin declares that the Japanese minister of war has confidentially informed his colleagues that there is no hope of taking Port Arthur by direct assault, and that long operations will be necessary. Therefore the minister has ordered Field Marshal Oyama to avoid attacks entailing heavy losses. This, the correspondent says, has been concealed from the public.

St. Petersburg, Aug. 27.—It is evi-

dent, according to both official and unofficial advices, that a Japanese movement against General Kuropatkin is rapidly developing. Whether or not the belief of the war office that the eastern movement is a feint is well founded, it is evident from a dispatch from Kantzertum, seven miles south-east of Liao Yang that heavy fighting is now in progress on the eastern front of the Russian lines. If the Japanese, following their usual custom, are preceding a real attack by a feint so heavy as to simulate such an attack, it should not be long before a deadly battle develops on the southern and western fronts. It is evident that the heaviest force is that of General Kuroki, and that probably the main attack will be driven in from the southeast against Mandchuria. In the meantime, if the precedents of the campaign count, the activity at Port Arthur should experience a let-up while the attention of the Japanese is concentrated against Liao Yang.

A dispatch from Liao Yang says: "A curious indication at the positions of the methodical preparation for a big battle is the fact that 10,000 wooden boxes in which it is intended to place the ashes of the killed, who are to be cremated on the battlefield, have been delivered in the neighborhood of Liao Yang and that 800 Chinese have been engaged to burn the bodies of those who may be killed."

The present disposition of the Japanese forces is as follows: General Kuroki, with 100,000 men, is between Khoyan and Gungazy; General Nodzu, with 60,000, is in the line between Simoucheng and Khabin, and General Oku, whose force has been greatly depleted by withdrawals for the Port Arthur siege, is at Halcheng.

The weather is improving greatly

and becoming favorable for active operations."

Says Fortress Will Fall.

Boston, Aug. 27.—The fall of Port Arthur is inevitable, according to Baron Kentar Keneke, the special envoy of the Mikado of Japan to this country, who is now visiting in Boston. The Baron added in a statement which he made to the press that the capture of the fort was certain to come, not only because the Japanese planned at the very outset of the campaign to sacrifice, if necessary, from 40,000 to 50,000 men in its capture, but also because the whole of Japan regarded it as a point of national honor that the port should be retaken from the Russians and returned to the nation into whose possession it rightfully came ten years ago.

Attack on Liao Yang.

Liao Yang, Aug. 27.—According to the best information obtainable the Japanese are preparing for a desperate attack on Liao Yang, in which, the Chinese say, they are confident of success. Siege guns have been sent from Yinkow to Tatchekian, intended for use against General Kuropatkin's positions.

The police believe the gang is the most desperate captured here for years.

Va., against the Baltimore and Ohio Railroad company, charging undue and unreasonable prejudice and disadvantage in the matter of the shipment of coal. The complainant company says that its coal mines are located along the Bellaire-Columbus division of the Baltimore and Ohio, about three miles west of Barnesville, O. and that because the defendant railroad refuses to construct proper sidetrack connections an undue preference is given such competitors which the complainant company asks the commission to cause to cease, and to issue such further orders in the premises as may be deemed necessary.

LABOR LEADERS THINK STRIKE WILL END SOON

They Look for Settlement Next Week.

Efforts of Chicago City Council Prove
to Be of No Avail—The World
of Labor.

Chicago, Aug. 27.—Intervention having failed, it is reported today that a committee representing the strikers, will make a direct effort Monday to secure a conference with the packers. The packers now declare that the strike is already broken.

Chicago, Aug. 27.—The labor leaders announced that in all probability the stockyards strike would be settled peaceably before Wednesday of next week. They declined to explain the cause of their belief, but were positive in their statements that the strike would not be called off. President Donnelly of the butchers' union has called all the members of the butchers' executive board to meet in this city next Wednesday.

The efforts of the aldermanic committee of eleven, appointed earlier in the week to attempt a settlement of the stockyards strike with the parties to the dispute resulted in nothing. There is no present prospect that they will result in anything in the future, and the chances of an agreement between the packers and the strikers appear very meager. The strike leaders appeared before committee and stated their side of the case. They did not suggest to the aldermanic committee that it make any overtures to the packers, but simply gave their side of the controversy. The representatives of the packers T. J. Connors, Edward Tilden, Thomas E. Wilson and J. E. Maurer, then appeared before the committee, and after a session that lasted three hours Mayor Harrison said: "The packers have said just what they said before—that they are running their plants and have nothing to arbitrate, and that there is no reason why they should confer with the men."

After the meeting with the packers had adjourned, President Donnelly of the butchers' union and other labor leaders called upon the committee and were informed that the meeting with the packers had resulted in nothing. President Donnelly expressed regret, but the others left the city hall without saying anything. It was decided that the aldermanic committee shall assemble at 1 o'clock on Monday to meet the representatives of the strikers. The object of this meeting is that the strikers may tell of results obtained in a final effort for peace which they intend to make. This effort, the strike leaders say, will be made in a final appeal to the packers for a conference.

No one saw him fall and he was miles from any house. Picking up his severed limbs and tucking them under his arms, he crawled for almost half a mile when another freight train approached and the engineer discovered the man's terrible condition, stopped and picked him up. He was taken to Dingess, where physicians dressed his wounds, and he may live.

MATTHEWSON IN NEWARK

New York's Great Pitcher Will be in Game Being Arranged by Manager Driscoll—Other League Teams Booked—Mason to Pitch Sunday.

A great pitchers' battle may be expected Sunday at Idlewild Park, when Nel Mason, recently with Idlewild, now on Mt. Vernon's pitching staff, will be pitted against one of his old team mates, either Stone or Farrell. The Mt. Vernon team is playing great ball and Mason's presence on the team should draw a big Sunday crowd.

Manager Driscoll is now in correspondence with Pittsburgh, Cincinnati, Cleveland, Detroit and the Boston (American League) teams, and has practically booked them for games during September. An effort is also being made to have New York (National) play in Newark when the great Matthewson and "Iron Man" McGinnity will be seen, as Manager McGraw has assured Manager Driscoll that if dates could be arranged one of them would be in the game, if he didn't pitch.

HATCH

PITCHED GREAT BALL AGAINST IDLEWILDE FRIDAY.

Snyder Had Everything But Control, and Was Very Poorly Supported —The Score.

The Idlewild baseball team was defeated at Mt. Vernon Friday afternoon by the overwhelming score of 11 to 1. The loss of the game can be briefly told in a sentence. "Lefty" Snyder had no control, the team did not support him, and Newark could not hit Hatch. Newark's only run was made by Joe Doyle, who scored on a hit against the fence made by his namesake, Frank Doyle, Idlewild's new second baseman. The score:

R. H. E.
Mt. Vernon 3 0 0 1 3 0 0 4 *—11 10 1
Idlewild 0 1 0 0 0 0 0 0—1 7 4
Batteries—Hatch and Miller; Snyder and Snodgrass. Umpire—Markel.

ON SHOULDER

Frank McQueen, Third Baseman, Was Hit In Friday's Game and Badly Hurt.

In a remarkable game played on the Idlewild diamond Friday afternoon, the King Company team defeated their only rival for amateur championship honors, the Rutledge Bros. team, in a close and exciting game. The score was 2 to 1, and both pitchers were exceedingly effective, allowing only one hit apiece.

Frank McQueen, third baseman for the Rutledge team, was hit on the right shoulder by a pitched ball, and seriously hurt. It is thought his shoulder is dislocated. The short score follows:

King Co. 0 1 0 0 0 1 0 0—2

GUN CLUB SHOOT

The merchants shoot of the Licking Gun club will be held Tuesday afternoon.

What Did the Woggle Bug Say?
It's Worth \$250 to Know
Join the Woggle Bug Society and be happy.

Men, women and children are eligible to membership. It was organized for the benefit of children only, with the intention of educating and elevating the minds of the young from lessons set down by the merry Woggle Bug and his followers, the Tin Woodman, the Scarecrow and Jack Pumpkinhead. Parents who wished to investigate the society before allowing the children to join, have insisted upon becoming members also, and since it was decided to admit all, it is hard to tell who are the most enthusiastic. One thing, sure, they all laugh alike and don't have to leave home to do it, either. If you are not ready to join yourself now, see that your children become members, and you will be sure to come in later. No charge for membership fee. For full particulars see "The Pittsburg Sunday Dispatch, August 28, \$250 in prizes.

INSTITUTE

ADJOURNED AFTER ADOPTION OF RESOLUTIONS.

Successful Week's Work Ended at the High School Chapel Friday Afternoon—Resolutions.

The opening exercises of Friday afternoon's session of the Teachers' Institute were in a sense preparatory to the main interest of the closing session—the election of the officers for the coming year. The result of the election was published in Friday's Advocate.

The retiring member of the executive committee, Mr. L. H. Smith, not being a candidate for re-election, two nominations were made. Mr. Brown presented the name of Mr. J. L. Clifton of Homer; Mr. F. P. Householder nominated Mr. W. H. Orr of Jacksonville. The election resulted in the choice of Mr. Clifton by a majority of seven.

On account of the great amount of work on hand, the closing remarks of each instructor were limited to fifteen minutes.

Mr. Denney then spoke, expressing his wish to leave on the minds of his audience the one thought, that English teaching, while of deep importance, is not everything—that nothing in life counts for so much as experience.

So far as it goes, literature is life, or it ought to be. A character in a book should be judged as the same character would be judged, met on the street. You have a right to demand that any writer, speaking to you through the printed page, should deliver an intelligent message. If this thought stays with you, said Mr. Denney, I shall feel that I leave with you no exaggerated idea of the importance of literature as such. Around us are being lived stories with plots as true as those of Shakespeare's tragedies. Literature is life, so far as we make it so; it has, in itself, life giving qualities. In art, in conduct or in character, or in literature, to love the good is but one thing; the same measures that we apply to life itself should be applied to literature. The morally good, the scientifically true, and the beautiful, are the trinity by which we find the true measure.

It may be added, by those who have learned during the week to prize Mr. Denney's friendship and helpfulness, that such a measure, applied to the lessons he has presented, can in no wise fail.

Mr. Call emphasized as his closing thought, the idea that work is the consummation of all the elements that have been mentioned as entering into it—that character is the real end of all. He suggested that in his schools they write on their banner the words "A Great School," and make everyday events measure up to this motto. When decisions are made, they test them by the question, "Will this, or that, help to make a good school?"

It was suggested that the public school be made in every sense public; that a public school column, once a week in the local papers, arouses interest among the pupils and their parents. Let the praiseworthy work done by the pupils be exhibited and encouraged; let the people come in touch with the school.

If any ideas could serve as an inspiration among three hundred county and city teachers, certainly those of Mr. Call have been such. If a recall to a place where work has been done is a tribute of satisfaction. Licking county teachers as a whole will be anxious to pay this tribute a second time to Mr. Call. No instructor has ever left a stronger impression upon a week's audience.

Mr. Miller appeared, for the fifth time, to express his parting sentiments to a Licking County Institute—for the third consecutive time. In sympathy with his audience, he spoke of the practical question of teacher's pay, one of the questions nearest the teacher's heart. He expressed his belief and his hope that teachers would not long be obliged to exchange a year's work for compensation less than would be paid for one finely-bred animal. In asking for greater compensation, the teacher is simply demanding his own right. Why should a teacher's services be reckoned on a scale different from that in use in the mercantile world. When you get real value there, you pay the proper price for it. The well-prepared teacher should be able to demand and receive his price. The good Board ought to receive no teacher but the best, and the best cannot be had for the asking.

Mr. Miller perhaps exercised his usual cleverness in choosing for his closing subject one that would insure him a hearing; but it can well be assured, that, should he return to Newark for another year's work, he will be guaranteed an audience, whatever his subject.

Mr. Moore of Pataskala, chairman of committee on resolutions, read the following resolutions, which were unanimously adopted:

RESOLUTIONS.

Whereas, the Licking County Teachers' Institute of 1924, has been one of the largest in membership and one of the most inspiring to the teachers of any held in the history of this county, and whereas the attendance has been unusually full and regular throughout, therefore be it

Resolved, that we heartily appreciate all the causes and conditions that have made the Institute more success-

Children's School Shoes

It is natural for some children to come here for shoes as it is for them to go to school. But we are after new friends. Do you know that one of the worst things you can do to the children is to make them wear ill-fitting, poorly-made shoes? Shoes that pinch, leather that's not properly tanned?

We put in medium-weight leather in the uppers of our Children's School Shoes, and yet it must be soft—don't let anybody tell you that heavy leather can't be made soft.

We put nothing but oak-tanned sole-leather under these uppers—oak leather is the strongest sole leather made, and it's pliable besides.

All this costs money, but what extra we put into our shoes we get out again by selling so many. You can't find better School Shoes than ours, if you try.

The Lockharts, Frank

Cowan, monologist, Clifford D. Worth, singing and dancing comedian, Kelly and Wentworth, sketch.

The following are some of the newspaper comments regarding the Royal Pathfinders: "The Royal Pathfinders last night strengthened the previous good impression made at the Empire when they presented Mr. E. S. Willard's celebrated Middleman. The company is very strong and unlike most organizations of the kind, is of fairly uniform strength—Pittsburg Leader.

"The strong points of last night's performance at the Grand were Louis J. Russell, Harold Kelley and Flora Wentworth, each of whom gave a remarkably clever rendition of their roles."—Wheeling Register

MRS. THRAILKILL

Accuses Husband of Brutal Assault Friday Night

Lay Helpless and Unconscious on a Lounge When Found

Her Face Beaten Into an Unrecognizable Mass of Bruised and Bleeding Tissue--Woman Thinks Her Back is Broken.

Lying on a couch moaning in agony her face beaten into an unrecognizable mass of bruised and bleeding tissue, an Advocate reporter Saturday noon found Mrs. Laura Thrailkill, proprietor of the Chicago saloon, 113 Oakwood avenue.

As the reporter was passing, a neighbor woman came rushing out of the residence portion and accosted him with "Are you the doctor?" He replied that he was not, but asked what the trouble was. The woman replied that she had noticed the saloon was not opened up as usual on Saturday morning, and at 11 o'clock she went to investigate. All she could hear was groans coming from the interior. Going to a side door she entered the apartments and found Mrs. Thrailkill unconscious, and unable to move. It could at once be seen that she was very seriously injured and everything pointed to the fact that she had been the victim of a brutal assault.

When the reporter arrived the poor woman to some extent regained consciousness, but only two intelligible sentences could be gathered from what she said. Her suffering was pitiable and she was asked "Who did this?" "Oh, he's my husband, and I've slaved for him, but don't hurt him."

An effort to use the telephone to call a physician elicited from her the statement, "It won't work. He cut the

wires Friday night when he left."

This was all she could or would tell of what seems to have been a murderous assault. She was absolutely unable to move and moaned piteously that her back was broken. Those in the room attempted to adjust her body more comfortably which effort was met with a scream of anguish.

Her right arm to the shoulder is frightfully bruised, her throat bears unmistakable marks of choking, and her face and head are bruised and swollen until they bear little resemblance to the features of Mrs. Thrailkill as she appeared Friday.

The room gave no evidence of a struggle, and from the condition in which the woman was found it appears that Thrailkill must have placed her on the couch, thrown a couple of comforters over her body and left her for dead.

Thrailkill is a saloon keeper who has a police record. Besides having been arrested several times for violating the Sunday closing ordinance he at one time ran away with nearly \$1,500 which he embezzled from Dr. D. M. Smith. He was captured in St. Louis by Chief James Sheridan, and brought back to Newark, where he settled the matter up. He is a medium sized man, dark hair and eyes and dark complexioned. He dresses well and makes a good appearance.

NEW COMPANY

WHICH WILL MAKE STONE BLOCKS IN NEWARK

Will Build Plant Near Lane Bros' Shops and Will Employ 20 to 30 People.

Mr. Charles M. Hoover, promoter of The Licking Art Stone and Construction Company on Saturday, informed The Advocate that the new company will soon begin the erection of a large building to be used in the manufacture of artificial stone or concrete blocks for building purposes.

The plant will be situated on the south side of the Shawnee branch of the B. & O. Railway, between the creek and the Lane Bros' shops, on lands now owned by the Vogelmeier heirs.

Mr. Hoover states that negotiations have already been completed that will consume the output of the plant for several months. The machinery to be installed in the new plant is a recent invention manufactured by the Hayden Automatic Block Machine company of Columbus, Ohio, at which concern a number of other block machine companies are having their castings made. At Columbus the great foundry and machine shops of the Hayden company are busily engaged in all departments, building their latest improved and patented machines for the manufacture of the automatic concrete blocks or stone, which they confidently believe is the building material having the greatest future.

The Hayden machine which the Newark company will use, will enable them to make a high-class of work, being capable of producing an unlimited variety of sizes and designs and colors in imitation of stone or otherwise.

The new plant at Newark when fully equipped, will employ from 20 to 30 men.

Complete fusion has been effected in Nevada between the Democratic and Silver parties on State affairs and Presidential electors by which the State is assured for Parker.

All efforts of the Republicans to fix up their division in Delaware have failed and two State tickets are in the field. Delaware can be counted in the Democratic column with reasonable certainty.

A split has occurred in the Republican party in Michigan that promises to place the party in as bad shape as its deplorable situation in Wisconsin. A mass Republican convention is to meet at Grand Rapids on September 14 for the purpose of nominating an independent State ticket and carrying out reforms demanded by an undoubted majority of the rank and file of the party.

The Democrats of the Third Congressional District, Wisconsin, have nominated Herman Groelohorst as their candidate against J. W. Pabcock, the present Republican member, who has represented the district for a number of years, and is the chairman of the Republican Congressional committee. The LaFollette Republicans will support the Democratic candidate, which means his election, though the district is ordinarily strongly Republican.

DIFFERENCE BETWEEN THE PARTIES.

David B. Hill, in a recent speech, in speaking of the essential differences between the two political parties, the Republican and the Democratic, aptly said:

"The difference is that the Repub-

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system. It will continue to exist, annoy, and perhaps agonize, as long as these humors remain. It is always radically and permanently cured by Hood's Sarsaparilla which expels all humors and is positively unequalled for all cutaneous eruptions.

ican party stands for private purposes and the Democratic party for public purposes."

Roosevelt's Dangerous Tendencies

One of the leading Democrats of New York who supported Mr. McKinley on the currency issue was Wheeler H. Peckham, now in his seventy-first year, and full of enthusiasm for Judge Parker. He is a strong man in the Parker Constitutional club. He asserts that Roosevelt in his war talks appeals to the clamorous and fighting spirit of the people. "Personally," says Mr. Peckham, "I like Mr. Roosevelt, but as a President he shocks me, for he represents a spirit opposed to the best hope of American institutions, and is rapidly bringing about policies and conditions which are hard to distinguish from the bad old ways of Europe, from which we separated at the time of the Revolution." Further, says Mr. Peckham:

"Mr. Roosevelt would make the soldier the highest type of our civilization. I would make the soldier the lowest type. We do not want to revive the brutish ideal of the armed crusades in these days. The fighter must never again be set above the thinker, nor strength above justice."

"I am opposed to making the United States a world power by means of a great army and navy or a meddlesome, arrogant foreign policy. If we are to be a world power it should be by freeing ourselves from militarism and kindred evils, and showing the other peoples of the world a government so just and a people so free and happy and lightly burdened that they will adopt our institutions. In this way we may become the greatest world power in history."

For two campaigns, Mr. Peckham declares, "I have had to turn my back on the Democratic party, but I feel now that I can give it my earnest support." This is the prevailing sentiment of the New York Democrats who went off on the silver question.

Judge Parker and the Philippines

(Pittsburg Post.)

Judge Parker in a published letter to Mr. John C. Milburn, of Buffalo, makes plain his attitude toward the Philippines. The Democratic National platform says in regard to the Philippines:

"We insist that we ought to do for the Filipinos what we have done already for the Cubans and it is our duty to make that promise now, and upon suitable guarantees to protection to citizens of our own and other countries resident there at the time of our withdrawal, set the Filipino people upon their feet free and independent to work out their own destiny."

In accepting the Democratic nomination for President, Judge Parker said: "The accident of war brought the Philippines into our possession, and we are not at liberty to disregard the responsibility which thus came to us, but that responsibility will be best served by preparing the islanders as rapidly as possible for self-government and giving to them the assurances that it will come as soon as they are responsibly prepared for it."

Mr. Milburn called for an explanation in these terms:

"Red Beach, East River, Conn., Aug. 20, 1904.

"My Dear Judge Parker:

"I have noticed in some quarters a disposition to criticize the words 'self-government,' used by you in connection with the future of the Philippine islands, as meaning something less than independence, and I venture to ask if I am not right in assuming that 'self-government,' as you used the phrase, is identical with independence, political and territorial? With my warmest regards, I am, very sincerely yours,

JOHN C. MILBURN."

And Judge Parker responded as follows:

"Esopus, N. Y., Aug. 22, 1904.

"My Dear Milburn:

"You are entirely right in assuming that as I employed the phrase, 'self-government,' it was intended to be identical with independence, political and territorial. After noting the criticism referred to by you, I am still unable to understand how it can be said that a people enjoy self-government while another nation may in any degree whatever control their action. But to take away all possible opportunity for conjecture it shall be made clear in the letter of acceptance that I am in hearty accord with that plank in the Democratic platform which advocates treating the Filipinos precisely as we did the Cubans; and I also favor making the promise to them now to take such position as soon as it can prudently be done.

"Thanking you for your letter, and with best wishes for you always, I am, Very sincerely yours,

ALTON B. PARKER."

This clear and explicit letter will satisfy many Democrats and independentists who desired more decided declarations from Judge Parker as to the policy he would pursue as to the Philippines in contradistinction with the avowals of President Roosevelt. In doing this the Democratic candidate does not propose any "scuttling" from the Philippines. As the World puts it we did not retire from Cuba until

THREE CORNERED FIGHT

Between Dick, Herrick and Foraker Still More in Evidence--Forakerites Charge Dick With Disloyalty to Roosevelt--Dick Between Two Fires.

Columbus, Aug. 27.—The situation is acute in regard to the three-cornered fight between Dick, Herrick and Foraker. On excellent authority it is charged that the Foraker people are attempting to prejudice the Republican National Executive committee against the Dick organization in this State. It is said that Chairman Cortelyou has been directly approached with this end in view. Letters have been recently written to members of the national committee by prominent Ohio followers of Senator Foraker discrediting the sincerity of Chairman Dick and making direful insinuations regarding his alleged loyalty to President Roosevelt. All this has a double object. The effort is not only to discredit Dick and his organization but to induce the national committee to place the sinews of war in Ohio in the hands of the Foraker people, thereby crippling the Dick machine and correspondingly strengthening the followers of the senior senator. The Dick leaders who surround Republican state

it was safe to do so for "free Cuba" and for us, and not until we had obtained ample security for our proper National interest in the future. Judge Parker would "make the promise to the Filipinos now to take such action as soon as it can prudently be done." In honor this Nation can do no less. In prudence it can do no more. Judge Parker has stated his own position and that of the "safe and sane" anti-imperialists in a manner that defines this issue sharply for the campaign. For this he is entitled to the credit everywhere given to honest convictions and the full candor and courage of them.

ORGANIZATION

Of Democratic State Headquarters at Columbus—Good Progress Already Made.

Columbus, O., Aug. 27.—The work of state organization is proceeding quietly at Democratic state headquarters in this city, with Secretary Nichols in charge. The complete organization of all the counties will be effected not later than the first of October. Fairly good progress has already been made, although it must be confessed that on both the Republican and Democratic sides this year the preliminary political work is slow—a fact probably due to the determination of the leaders to make the fight one of the liveliest on record after it is formally opened.

Chairman Garber of the state executive committee, is expected to return from his western tour next Tuesday, after which he will remain at headquarters throughout the campaign. The executive committee will meet shortly after his arrival and thereupon the political ball will begin to roll in earnest. A meeting of the Democratic editors of the state, under the auspices of the Ohio Democratic Editorial Association, is scheduled for Columbus September eighth. Altogether the political skies will begin to brighten in the very near future and may be expected to glow and burn over Ohio with unprecedented intensity during the next two months.

NEW CHAIRMAN

Chosen By the Democratic Executive Committee in the Person of Mr. B. F. McDonald.

At the meeting of the Democratic Executive Committee on Friday evening, Mr. B. F. McDonald was chosen chairman to fill the vacancy caused by the resignation of Mr. Phil B. Smythe. Mr. McDonald is one of the brightest and ablest young attorneys of Newark, as well as an earnest, active Democrat. He will make an efficient chairman of the committee and will devote his whole time to the hard work of the campaign.

ATTENTION, LABOR UNIONS.

All labor unions that expect to turn out in the parade on Labor Day, Sept. 5, 1904, MUST report to the undersigned before Sunday, August 28, in order that the committee may properly assign them.

headquarters in this city profoundly resent this performance of the Foraker people, which they claim is without justification and is intended solely to destroy the prestige of their leader in state and national politics. There is no doubt about the latter proposition.

The fact is that Dick is between two fires in the present situation. The Herrick people are trying to destroy his influence in the state organization and attempting to build up a Herrick machine in opposition to him, while the Foraker faction are seeking to destroy any influence he may have with the national administration as a United States senator and to array all federal patronage of the state against him. It is certain that Democratic interests in Ohio will not suffer from this triangular war among the Republicans. Some of the more conservative among the latter are beginning to be alarmed themselves in regard to the possible consequences of this factional strife.

ENJOYED BY ODD FELLOWS AT IDLEWILDE PARK.

Results of the Sports Carried Out During the Afternoon at This Popular Resort.

The picnic held by the Odd Fellows of Newark and Licking county at Idlewilde park on Friday, under the auspices of Newark and Olive Branch lodges, of Newark, was a grand success. Odd Fellows and their friends from every part of the county were in attendance, and had a glorious time. There was a big program of events and amusements, which was carried out as follows:

At 10:30 o'clock in the morning there was a rattling good game of ball between Hanover and Newark lodges, which resulted in a score of 14 to 4 in favor of the Hanover team. The prize was a box of fine cigars.

Mrs. Ford was awarded the prize of a handsome rocking chair, she being the oldest Rebekah in membership present. Mrs. Ford became a Rebekah in 1867.

AMZI LARASON

DIED VERY UNEXPECTEDLY ON FRIDAY NIGHT.

Mr. Larason Was In Newark During the Day—Funeral Monday at 2 O'clock.

The community was startled Saturday morning by the sad intelligence that Mr. Amzi F. Larason, who resided just outside of the city limits in Madison township, had died during the night. Mr. Larason was about the city on Friday and was seen and talked with by a number of citizens as late as noon on Friday. He was a very sick man then, but no one thought that his death would be so sudden. He spent the afternoon at home and retired about the usual time. Some time between 10 and 11 o'clock his wife was awakened by his heavy breathing, and when she spoke to him he did not answer. She immediately arose and found him in an unconscious condition. A physician was at once phoned for but before he arrived the vital spark had fled.

The immediate cause of Mr. Larason's death was a severe attack of diarrhoea, from which he had been suffering and nervous exhaustion, which followed it.

The deceased was aged 57 years, and was born in the northeastern part of Licking county, where he spent the greater part of his life. For years he was engaged in the business of auctioneering and in buying and selling buggies, in which business he became well known throughout this county and of the adjoining counties of Knox and Coshocton. Some ten years ago he was married to Miss Holtz, daughter of Mr. and Mrs. John Holtz of Madison township, and a sister of Deputy Treasurer C. L. V. Holtz.

A few years subsequent to his marriage Mr. Larason took charge of the Infirmary as superintendent, with his wife as matron. This important position they filled for seven years faithfully, when they resigned at the end of last year, since which time they have resided in Madison township.

Mr. Larason was a life long Democrat and a thoroughly honest, whole-souled man, liked by every one who knew him.

The funeral will take place from the late home of the deceased on Monday afternoon at 2 o'clock, under the auspices of Martinsburg lodge of Odd Fellows. Rev. H. Newton Miller officiating.

The deceased leaves a devoted wife and several brothers and sisters and numerous relatives and friends to mourn.

LABOR DAY
NOTES ABOUT THE BIG CELEBRATION SEPTEMBER 5.

At the meeting of the Trades and Labor Council Thursday evening, it was decided that all delegates to that body from local unions, should turn out in the Labor Day parade with the Council. Delegates will meet at the Labor Hall Monday morning, September 5, at 8:30 o'clock sharp.

As Newark will have several thousand visitors on Labor Day, it is urged that all business men and citizens generally decorate their places of business and residences. Let the city put on its holiday garb and show our visitors how Newark can do a thing when she starts out to do it.

Marshals of the local unions which desire to compete for the prizes, will please bear in mind that the number of members of their local in line on Labor Day must be reported to the chairman of the general committee, while the parade is in motion. Failure to do this will disqualify the local.

It has been decided that inasmuch as many of our visitors will be compelled to leave the city comparatively early in the evening, Brennan's hall will be open for dancing in the afternoon as well as in the evening.

A unique feature of the Labor Day parade will be the Agricultural Section, furnished by the farmers of Licking county, who will vie with each other in giving an exhibition of all the products of good old Mother Earth.

Gratifying responses have been received from the merchants and manufacturers of the city who were invited to make a display in the parade. This is always an interesting feature, but this year promises to be better than ever.

The prizes offered for the union making the best appearance in the parade, and also for the union having the largest percentage of its membership in line, has created a great deal of friendly rivalry among the various locals, and nearly every union in town will compete for one or both of the prizes.

The full program of amusements, together with the line of march, will be published in Monday evening's papers.

All Labor Day committees are requested to meet at Labor Hall Sunday morning at 9:30 o'clock, sharp. This will be an important meeting and every committee member should be present.

Henry Siegel will be grand marshal of the Labor Day parade. His aides are: Michael Mall, Jr., of the Green Glass Blowers; J. I. Dollison of the Carpenters and Joiners; Frank Mince of the Iron Molders; Jerry Shaw of the Stove Mounters, and Fred Woodbridge of the Retail Clerks. The aides are requested to meet the Grand Marshal at Labor Hall Sunday morning at 9:30 o'clock.

SAFELY THROUGH MOTHERHOOD WITHOUT PAIN.

What a wonderful message of hope and escape from suffering these words carry to that woman who is enduring the hour that shall proclaim her Motherhood. Perhaps for her it is the first time God has blessed her with what are also mothers and a new life tempests the coming event which even now is causing her shadow in the way of many painful discomforts. The hope held out in these words means that childbirth has been turned into an event of thanksgiving and joy, stripped of its agonies and dangers because of the learned skill of man.

MOTHER'S FRIEND

is the name of the remedy which means so much to the expectant mother: she can apply it herself and feel an improvement at once which but intellects the pain and suffering which it carries when childbirth takes place. The testimony of Mothers who have used it successfully will convince you, the word out of praise are found in our book, "Mother's Friend." Send for it.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ.

Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

HEISEY FACTORY

Capacity of East Side Plant is Now Being Doubled

It Means About 300 New Families Will Come to Newark

Authoritative Announcement is Made by Mr. George Heisey to the Advocate-Reporter Visits the East End Factory and Views New Building.

To realize the rapid and continuous growth of the city of Newark, one must keep pace with the improvements that have been made and are in contemplation among the manufacturing industries.

Notice has been made of the Wehrle company and the Everett Glass company, but only a passing mention has been made of the Heisey glass works and the vast increase in its productive capacity which will be an immediate fact.

Mr. George D. Heisey, son of Mr. A. H. Heisey, authoritatively announced to an Advocate reporter who visited the plant Saturday morning that September 12 the plant would start up with just double its present capacity. A new Dixon Reverberatory furnace has just been finished and the scaffolding was torn down Saturday. Fire will be started as soon as the piping for the natural gas is completed. The new furnace is exact in size with the old one, but in every way is more modern. It is a 16-foot furnace, and will be equipped with clay crucibles in which the glass "mixture" will be heated, thus not allowing the flame of the gas to come into direct contact with the mixture. These crucibles have been shipped from Pittsburgh and are now at the Heisey plant. Each one holds several tons of "mixture."

The new stack is 110 feet high, and Mr. Heisey and the reporter climbed to the top on the flimsy scaffold ladders, from whence a fine view of Newark could be had.

The men who will work in the new furnace will be brought from a number of Ohio towns and means an increase to Newark's population of about 300 families.

This fall a half dozen gas producers will be constructed, which will be relied upon to furnish fuel in case the present supply of natural gas from the Logan company should give out. They will be of the most modern make.

The new factory building now being constructed will be 205 feet by 90, over all. It will be a two-story brick structure with iron roof. There will also be a 2-story brick building to be used as a stock room, and a 2-story addition 20 by 40 building to the present mold shop. More mold makers are wanted by the Heisey company. But these are not all. Another pot arch is also to be built. In this the crucibles above noted will be heated so that should one in use become broken or unfit, another will be immediately ready to take its place.

The Heisey company manufactures table glassware specialties, such as candleabra, vases and goods for mounting and is known all over the country. The new furnace was built by the H. L. Dicken company of Pittsburgh, while the factory building is being put up by the Three C Construction company, also of Pittsburgh.

In this connection, it may be said that Captain Heisey has thousands of acres of gas land under leasees and that he is preparing to sink four wells in the vicinity of Union Station. The Heisey Glass company is doing its full share to promote the prosperity of this thriving city.
